

I do not want the No Call List reduced in any way.

The No Call List provides strong protection to more than 80 percent of Wisconsin residents - Big business (Banks in this case) should not be able to bully states into lessening our rules!

The current Wisconsin law, allows only one call to former customers, and was based on the strong voice of Wisconsin citizens saying we do not want to be telemarketed by any business with as few exceptions as possible.

Wisconsin's No Call List has improved the quality of my life, please keep our law to remain as is. WE Wisconsin citizens made it clear to the Federal government that we do not want to be exposed to telemarketing from a businesses or its affiliates simply because we have had contact with the business. The FCC must put consumers, not big telemarketers, first.

Please do not change this ruling. I want to continue to keep my home phones quiet.
